Kim Glass Half Day Seminars Saturday June 15 and Sunday June 16

Kim Glass is a respected local agility trainer and competitor. Her miniature poodle, Hobie, achieved multiple championships in both AKC and USDAA. Kim has trained and handled many small dogs and is currently competing with a driven Border Collie/Cattle Dog mix, Onni. This experience, along with teaching weekly agility classes and private lessons has made Kim very adept at helping just about any dog agility team.

Kim is a certified OneMind Dogs instructor with familiarity of several other handling systems. She loves to learn and loves to teach. Regardless of the handling system you currently use, Kim can help you see agility from the dog's perspective and learn the Dog's Rules for Agility. She strives for that magic moment when the light bulb goes off and each team is able to do something they never thought was possible!

The EYES have it!

June 15, 12:30 pm – 4:30 pm

You know you need to stay 'connected' with your dog, but this seminar takes connection to a new level. Learn exactly how, when, and why to look at your dog versus looking at the line. Learn to use your connection to cue in a timely manner and to help your dog stay committed. Appropriate for any level dog and handler teams sequencing at least 4 obstacles. Only jumps and tunnels will be used. (Based upon the wildly popular "Got It!" seminar from Mary Ellen Barry)

Building Drive and Distance

June 16, 8:30 am – 12:30 pm

Do you have trouble getting your dog to move ahead of you on course? Do you feel you can't leave early or your dog will follow you? This seminar is for you! We will work on building value for going to obstacles, growing your dog's commitment and his enjoyment in the game. Fun time for all levels, Novice to Masters. You'll leave this session with a personalized training plan for continuing your distance training.

You'll get lots of individual attention since there is a limit of 6 working spots per session. 6 Auditor spots are also available for each seminar.
